

NHS APP:

A Simple Guide

Access your NHS services

Continue

Version 2.29.0

What can you do with it?

With full access:

- **view your NHS number**
- **order repeat prescriptions**
- **book & manage appointments**
- **use NHS 111 online to get advice or medical help**
- **register organ donation decision**

How to register:

What you need:

- **An email address**
- **A mobile number (or landline)**
- **Full name**
- **Date of birth**
- **Postcode**
- **NHS number (if you have it)**
- **Photo ID (for verification)**

How to register:

- 1. Enter your email address.**
- 2. Create a password.**
- 3. You will then receive a security code by email. Input that in the box when prompted.**

How to register:

The app will request for **2-step-verification** to be set up. To do so:

1. Provide a phone number.
2. A code will be sent to this number. Input that in the box when prompted.

Afterwards: continue by following the instructions on screen.

How to gain full access:

In order to access information such as your health record or check for available appointments, you **MUST have **full access**.**

How to gain full access:

1. Verify your identity

- Have your **photo ID** ready (eg. passport, driving license, etc).
- Follow the instructions on screen to submit your proof of identity.

2. Provide GP registration details

- Ask your GP for a **Linkage Key**, **Surgery ID** and **Account ID**.
